### A DEPOSITORY CHRISTMAS CAROL

The documents staff at Broward County (Florida) Library has written a slightly revised version of the "Twelve Days of Christmas", just for depository staff members. In the spirit of the season they want to share it with you.

ON THE FIRST DAY OF CHRISTMAS, GPO SENT TO ME...A SHIPMENT OF DOE FICHE

ON THE SECOND DAY OF CHRISTMAS, GPO SENT TO ME...2 WEATHER MAPS

ON THE THIRD DAY OF CHRISTMAS, GPO SENT TO ME...3 TAX CODES

ON THE FOURTH DAY OF CHRISTMAS, GPO SENT TO ME...4 SHIPPING LISTS

ON THE FIFTH DAY OF CHRISTMAS, GPO SENT TO ME...5 CENSUS TRACTS!

ON THE SIXTH DAY OF CHRISTMAS, GPO SENT TO ME...6 ERICS FICHING

ON THE SEVENTH DAY OF CHRISTMAS, GPO SENT TO ME...7 TRADEMARK SEARCHES

ON THE EIGHTH DAY OF CHRISTMAS, GPO SENT TO ME...8 LORAN TABLES

ON THE NINTH DAY OF CHRISTMAS, GPO SENT TO ME...9 LAWS A-CHANGING

ON THE TENTH DAY OF CHRISTMAS, GPO SENT TO ME...10 PATENTS PENDING

ON THE ELEVENTH DAY OF CHRISTMAS, GPO SENT TO ME...11 INDIAN TREATIES

ON THE TWELFTH DAY OF CHRISTMAS, GPO SENT TO ME...12 DATA BASES!

## THE HEALTH CONSEQUENCES OF SMOKING

The annual report of the Surgeon General entitled The Health Consequences of Smoking was recently moved from SuDocs class HE 20.25/2:, for the Public Health Service, to HE 20.7614, for the Center for Health Promotion and Education, because the reports now show the Center as the issuing body. The Item number, 483-L-6, and the format, (P), remain the same. The title shown for the class in the List of Classes will be The Surgeon General's Report on the Health Consequences of Smoking, though titles on individual issues may vary.

\*\*\*\*\*

## NTIS ENERGY DISTRIBUTION CENTER

The Office of Customer Services at the National Technical Information Service (NTIS) has sent LPS the following announcement of interest to depository library staff and patrons:

**NTIS ENERGY DISTRIBUTION  
CENTER OPEN FOR BUSINESS  
IN OAK RIDGE, TENNESSEE**

The NTIS is pleased to announce that the NTIS Energy Distribution Center has been established in Oak Ridge, Tennessee, on-site at the Department of Energy's Office of Scientific and Technical Information (DOE/OSTI).

This Center will provide a central source of all DOE energy information, and is established to provide earlier announcement and access to energy information. DOE energy reports now appear up to five weeks earlier in the NTIS database, and standing order distribution of paper copy energy reports will be made four weeks earlier from the Oak Ridge Center.

Customers may send their orders for energy reports directly to NTIS Energy Distribution Center, P.O. Box 1300, Oak Ridge, Tennessee 37831, or they may continue to send orders to NTIS, 5285 Port Royal Road, Springfield, Virginia 22161.

Customers ordering both DOE energy information and other NTIS information should place orders in Springfield, where DOE information items will be verified and transmitted electronically each day to the NTIS Energy Distribution Center in Oak Ridge. Shipment will be made from this site.

Customer deposit account service normally provided to customers by NTIS will continue without change. To inquire about an order or any problem related to DOE materials for orders placed directly with the NTIS Energy Distribution Center in Oak Ridge, Tennessee, call (615) 576-222. For orders placed directly with NTIS and for other customer needs, call (703) 487-4660.

1301

## NTIS TITLE INDEX IN MICROFICHE

At the Fall 1987 Depository Library Council meeting, the Acquisitions Unit was asked to determine why the NTIS Title Index in microfiche, already advertised to libraries by NTIS, was not already in the Depository Library Program. Following established procedures, the Acquisitions Unit issued a "Publications Request" form to the National Technical Information Service. On November 10, 1987, a representative of NTIS certified that the NTIS Title Index is a "cooperative publication which must necessarily be sold in order to be self-sustaining" (44 U.S.C. s1903). Therefore, this title will not be part of the Depository Library Program.

\*\*\*\*\*

CONSTITUTION OF THE UNITED STATES OF AMERICA,  
ANALYSIS AND INTERPRETATION

In volume 8, number 11 of Administrative Notes, it was announced that the new edition of the Constitution of the United States of America, Analysis and Interpretation, would be sent to depository libraries when stock was received. LPS has recently inquired about the status of this volume and has learned that it has not yet been printed, but that stock is expected to be delivered by the end of January, 1988. When depository stock is received in LPS, it will be distributed under Item numbers 0996-A (P) or 0996-B (MF). The volume will also be for sale under stock number 052-071-00674-5 for \$70.00.

\*\*\*\*\*

ALA/NCLIS CAMPAIGN TO INCREASE CHILDREN'S USE OF  
LIBRARIES

On the next page is reprinted part of the promotional material for the campaign to sign up every school child in America for a library card, sponsored jointly by the American Library Association and the National Commission on Libraries and Information Science. LPS wholeheartedly endorses this campaign and urges depository librarians to support it in their local communities.

## Fact Sheet

CONTACT: Deborah G. Robertson  
Linda K. Wallace  
312/944-6780

### The Best Gift You'll Ever Give Your Child . . . A Library Card

To combat illiteracy, starting in the home, the American Library Association and the National Commission on Libraries and Information Science have launched a public awareness campaign to make parents aware that the best gift they can give their child is a library card.

The library card campaign was suggested by Secretary of Education William Bennett in his report on elementary education, "First Lessons." The American Library Association and the National Commission on Libraries and Information Science announced their acceptance of Bennett's challenge and launched the campaign with the theme "The Best Gift You'll Ever Give Your Child . . . A Library Card."

The Reader's Digest Foundation has provided a grant of \$85,000 to ensure the impact of the campaign through broad distribution of print, television and radio public service advertisements, and distribution of campaign materials directly to 80,000 school and public libraries. The kickoff celebration on October 14 in Washington, D.C., is being underwritten by Pizza Hut, Inc., sponsors of the BOOK IT! reading incentive program.

### The Illiteracy Problem

An estimated 27 million American adults cannot read or write well enough to function in our society. Illiteracy costs society an estimated \$225 billion a year in lost industrial productivity, unrealized tax revenues, welfare, crime, poverty and related social ills.

## A Solution

The "Best Gift" campaign goal is to stop illiteracy by educating parents. A child without access to books or libraries is handicapped for life. The public awareness campaign aims to put a library card in the hands of every school child and encourage them to use it.

The best gift parents can give their children is a library card because:

- Fifty percent of intellectual development occurs between birth and four years of age. As children read, or are read to, their vocabularies increase and their imaginations are stretched.
- Reading encourages emotional development as children learn to share in another's happiness or misfortune, broadening interests beyond themselves.
- Children who are exposed to reading early do better in school.
- Children who grow up using the library continue to use the library as adults.

In "First Lessons," Secretary Bennett said, "Children should belong to the public library. There is one within striking distance of practically everybody. Let's have a national campaign. . . . Every child should obtain a library card - and use it."

## The Message

The campaign theme says it all: The Best Gift You'll Ever Give Your Child . . . A Library Card\* (\*Guaranteed for a lifetime of learning and enjoyment). There is no other gift a parent can give a child that provides as much entertainment, information, knowledge and joy as a library card.

## Target Audience

The public awareness campaign will target parents with young children, especially in those households where more education and reading encouragement may be needed - lower income and ethnic. All messages will be produced in Spanish and in English.

Posters, bookmarks and other materials produced by the American Library Association will be made available for local use by a network of more than 80,000 public and elementary school libraries.

## USGS UPDATE

Staff from the U.S. Geological Survey presented some useful items of information at the "USGS Update" session at the Fall 1987 Depository Library Council meeting. A number of the points covered are summarized below.

1) In October 1986, the Depository Library Council's recommendation #2 requested that "all depository libraries receive all USGS shipping lists even though they may not receive any maps for those shipments." In the response to the recommendation (see Administrative Notes, v. 8, no. 8, April 1987), LPS and USGS agreed on the need to provide shipping lists for USGS maps to all MAP depository libraries as all depository libraries do not necessarily select item numbers beginning with 379-(alpha-numeric) and/or 619-(alpha-numeric). Effective October 1, 1987, libraries that select USGS maps will receive all USGS shipping lists, either with the maps, or separately, if the library has not selected any of the maps sent on a particular shipping list.

2) In January 1987, a program was implemented to compare the USGS monthly, New Publications of the U.S. Geological Survey, against maps actually sent on deposit. This new program was designed to ensure that the libraries received all maps selected, and to significantly reduce the libraries' need to claim maps that were listed as new publications but were never received. See Administrative Notes, v. 8, no. 15, August 1987, for further information.

3) State index booklets and companion catalogs are being sent to libraries that selected the 0619-M-01 through -53 Item number for the particular State being sent, not the 0619-G Item number which LPS used prior to the implementation of the 1984 USGS/LPS interagency map agreement. Libraries that have not selected maps for all States will therefore not receive all of the State indexes and catalog booklets. Those libraries that do not select all States but wish to receive all indexes and catalogs should simply request them when they are listed in New Publications of the U.S. Geological Survey. Write to the following address for copies of the indexes and companion catalogs:

Chief, Product Distribution Policy Office  
National Mapping Division (MS 508)  
12201 Sunrise Valley Drive  
Reston, VA 22092

4) USGS, with support from LPS, is moving to distribute the backlog of DMA maps. The chaos caused by the consolidation of the USGS warehouses in Denver is smoothing out and USGS now has the capacity to ship the accumulated DMA maps. LPS staff are assigning the Item numbers and titles. USGS, in turn, will show them on the USGS shipping lists. The first of about 15 sendings, including shipping lists, was shipped in mid-October 1987.

5) The 15-minute, 1:50,000-scale DMA maps which map depositories receive from time to time in USGS map shipments are produced under a USGS/DMA cooperative agreement. They are part of the USGS map program and should not be confused with the DMA program. These maps are prepared by USGS, printed by DMA, and distributed by USGS. DMA selects the maps to be prepared by USGS. It is the understanding of USGS that DMA has no intention at this time of covering the whole country with these 15-minute maps. See Administrative Notes, v. 8, no. 17, September 1987, for information pertaining to this series.

6) New style single-sheet State indexes are under development. They will be at the 1:1 million-scale and will utilize a modified State base. These indexes will show 1) all published and unpublished 7 1/2 -minute quads; 2) major drainage, towns, and roads; 3) county boundaries and names; and 4) township and range grids and section numbers for the 30 states affected.

\* These indexes will only show 7 1/2-minute coverage and not all map scales.

\* The new single-sheet indexes will highlight the one degree blocks and their identifying numbers, and will include the corresponding page number in the index booklet where the blocks are shown.

\* The new single-sheet indexes are expected to be used primarily by customers as a quick reference tool to obtain page numbers for the index booklets and by planners and others who need a way of observing an entire State at one time.

\*These indexes are expected to be distributed with the booklet format indexes as loose inserts.

\*Colorado is being used for the prototype and will be the first State to be printed. Printing is scheduled for November 1987.

The above information closely follows the text prepared by Charles Bennett of the U.S. Geological Survey's National Mapping Division. If you need further information, he can be reached at (703) 648-5774 or by writing to him at the address which appears under point 3 of this article.

## USGS NATIONAL CARTOGRAPHIC INFORMATION CENTER

The National Cartographic Information Center (NCIC) is the primary information organization of the National Mapping Division of the USGS. It has developed into a network that consists of USGS NCIC offices, a Federal affiliate NCIC, and many state affiliate NCIC offices.

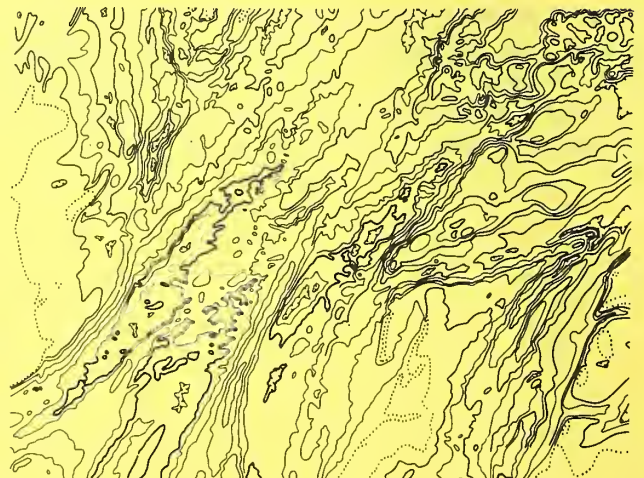

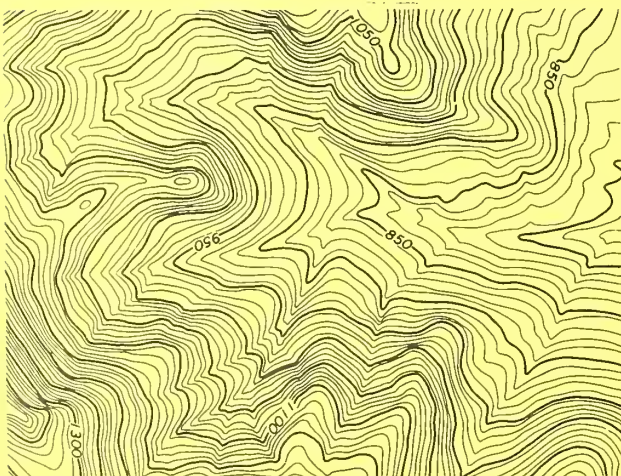

In addition to answering questions on cartography, geography, geodesy, and remote sensing, NCIC operates a national information service for U.S. cartographic and geographic data, including the data of other government agencies. NCIC gathers, organizes, and distributes descriptions of maps, charts, aerial photographs, digital map data, geodetic control data, geographic data, and satellite products.

NCIC informs patrons about the cartographic products of a number of Federal agencies, e.g. U.S. Forest Service aerial photos; Central Intelligence Agency country and world maps; Corps of Engineers river navigation charts, International Boundary Commission maps and international boundaries, etc. And that is only the Federal cartographic information!

Because of the trend toward digital mapping, recording map information in computer files has become an integral part of the National Mapping Program. NCIC has begun distributing digital elevation models that may be used for portraying land profiles. NCIC also distributes digital terrain tapes containing records of elevations on a 1:250,000-scale map series.

NCIC takes orders for National Mapping Program map data products. For example, prints of many aerial photos used to make today's maps can be ordered through any NCIC office. One of the most popular photos that can be ordered through NCIC is a color photo of New York that shows the Statue of Liberty, the New Jersey coast, Queens, and Manhattan Island from the Battery to midway up Central Park.

(The above information was compiled from several USGS publications, chiefly the Guide to Obtaining USGS Information, SuDocs I 9.4/2:900-986, Item 0620-A, distributed on shipping list 86-544-P.)
